

INTERVENTION EARTH

Public Lecture and Book Signing with **Gwynne Dyer**

The global climate emergency is now an alarming fact of life. As scientists, politicians and concerned citizens scramble for solutions to the catastrophic effects of a warming world, many are thinking that it's all too little, too late. For **Intervention Earth**, renowned historian, journalist, and author Gwynne Dyer interviewed the world's top 100 climate scientists to discuss the extraordinary measures we must contemplate to counter the irreversible effects of climate change.

In this public lecture, Gwynne will share what he learned through those conversations and propose some options—big and small—that might just keep us ahead of encroaching disaster and carry us to a safe harbour. This lecture will be followed by a book signing. Copies of *Intervention Earth* will be available for purchase at the event.

**TUESDAY, OCTOBER 1, 2024,
3:00 - 5:00 PM**

Henry Taube Lecture Theatre

Thorvaldson 271 ("Airplane Room")
110 Science Place, University of Saskatchewan
